HOBBIES AND INTERESTS

About Me

I define myself as a maker, and my ardor for the world of 3D prototyping runs deep. This captivating realm has not only fueled my passion but also served as a catalyst for the development of my problem-solving skills. Engaging in 3D printing has immersed me in a stimulating and challenging environment that has indelibly influenced my mindset. Within this domain, I have honed the ability to think critically and analytically, navigating through a myriad of obstacles that come my way.

My passion for Artificial Intelligence and Data Science has grown in recent years. To further explore these fields, I pursued a course of study in Data Science. Additionally, I devote my free time to engaging in projects that help me enhance my skills and knowledge in AI and related areas.
